

Northshore Schools Foundation Board of Directors Bond and Levy Endorsement Statement

As members of the Northshore Schools Foundation Board of Directors, we endorse Citizens for Northshore Schools and support all three school measures on the February 2026 ballot.

These measures maintain our current tax rate while replacing expiring levies. They fund the essential people and resources our students depend on every day, such as school nurses who care for sick children, counselors who support students through difficult times, librarians who foster a love of learning, and special education staff who ensure every child gets the help they need to succeed in the classroom.

They also ensure our kids learn in safe, modern buildings with reliable heating, updated technology, and seismic protections that give parents peace of mind.

Strong schools strengthen communities. Our district's performance and reputation contribute significantly to the region's livability and economic vitality. These investments support both current students and the long-term prosperity of our area.

All measures support the teachers, staff, and facilities that make Northshore an exceptional place to learn and grow. We urge voters to support all three measures.

Sincerely,

Northshore Schools Foundation Board of Directors
